

UNITED ATF Z-1

Product Description

Automatic Transmission Fluid for Type Z-1 is a superior quality formulation of high performance base oils with carefully selected additives, including a unique blend of friction materials. This formulation is specifically designed to meet the pressure settings found in Honda automatic transmissions, ensuring optimal shift quality.

By providing superior lubrication and enhancing transmission efficiency, it helps to improve overall driving performance, extends the longevity of transmission components, and ensures smooth, reliable operation under various driving conditions.

Applications / Benefits

- * Enhances transmission components' protection
- * Low oxidation; improved transmission fluid longevity
- * Excellent durability
- * Ensures smoother shifting at both low and high temperatures

Typical Characteristics

Test Description	Method	Unit	
Density @ 15 °C	ASTM D 4052	kg/L	0.8534
Flash Point	ASTM D 92	°C	198
Pour Point	ASTM D 97	°C	-45
Kinematic Viscosity @ 40°C	ASTM D 445	cSt	32.54
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	7.05
Viscosity Index	ASTM D 2270	-	187

Specifications, Approvals & Recommendations

- * HONDA ATF Z-1
