

UNITED CVTF 100

Product Description

Fully Synthetic transmission fluid blended with high-performance synthetic base oils and carefully selected additives, including friction modifiers, detergent-dispersants, oxidation inhibitors, viscosity index improvers, corrosion inhibitors, and defoaming agents.

This is a new multi-vehicle automatic transmission fluid which provides suitable performance in a wide-range of CVT-equipped passenger vehicles which transfer traction via steel-made traction chains or belts. The fluid features a distinct red color for easy identification. It provides outstanding power transmission ratios and better fuel-economy performance as compared with the regular automatic transmissions, with much more car makers adopting CVTs in more vehicle models.

Applications / Benefits

- * Provides excellent friction, oxidation and thermal stability
- * Outstanding anti-wear properties and oil film thickness.
- * Excellent shear stability for consistent shift
- * Compatible with a wide range of seals
