

UNITED TWIN DRIVELINE AT/CVT

Product Description

Fully Synthetic AT/CVT Transmission Oil formulated for use in both stepped automatic transmissions and continuously variable transmissions, making it suitable for the majority of automatic transmission vehicles on the road today. The product is engineered to meet the stringent requirements of both transmission designs using a single advanced transmission oil. Beginning with the most demanding steel-on-steel friction requirements, it effectively addresses the specific needs of each transmission type, including the severe operating conditions of hybrid vehicles.

The product delivers superior Anti-Shudder Durability (ASD) performance across a wide temperature range, including the elevated temperatures common in modern transmissions. It also exhibits excellent friction stability with a high friction coefficient across a broad speed range, providing outstanding protection against belt slippage to ensure reliable power transfer and enhanced CVT durability.

Applications / Benefits

- * Outstanding friction coefficient for smooth and reliable operation
- * Stable performance at high operating temperatures
- * One advanced transmission oil for both AT/CVT
- * Enhances transmission durability and service life

Typical Characteristics

Test Description	Method	Unit	
Density @ 15 °C	ASTM D 4052	kg/L	0.846
Flash Point	ASTM D 92	°C	198
Pour Point	ASTM D 97	°C	-42
Kinematic Viscosity @ 40°C	ASTM D 445	cSt	29.6
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	6.1
Viscosity Index	ASTM D 2270	-	161

Suggested for the Following Uses

* ATF	AISIN	AW-1
* ATF	AISIN	AW-2
* ATF	AISIN	JWS 3309 ATF, ATF-0T4
